Through school enterprises, providing a future for young people as entrepreneurs or employees

Project information

Project code	04019
Sector	Education & Training
Funding	Donation
Country	DR Congo
Location	Mbuji-Mayi, DR Congo
NGO	VIA Don Bosco
Project duration	4 years (2022-2026)

Why OVO believes in this project

A dignified job or owning your own business: several paths lead to this goal. B**etter access to vocational education, offering an internship and guidance to a new job.** This is how vulnerable young people get a **better future.**

Context

VIA Don Bosco helps **young people without a home**, away from their difficult situation and through vocational training towards **a better future** in Congo Mbuji-Mayi.

Purpose

- Better access for young people to **vocational education**

- **Offer internships** to students and guide them towards a job or their own business after studies

- Developing school **enterprises in our schools**

Social impact

We reach **2250 students** of which 65% are girls during the 5-year project with our **2 vocational schools** (Mazzarello & Anuarite). In addition, we have **close cooperation with an employment agency** who also accompany the young people after their studies to work or start their own business. Indirectly this helps 11250 people in their area to a better future.

Co-funding sought via OVO

2022	€ 20.994
